IV Conference
International on
Psychedelics

FUERTEDÉLICA

November 7 and 8, 2025

The psychedelic experience is not limited to the session itself: it is a journey that begins before and continues afterward. Its impact also depends on two other fundamental phases: preparation, which shapes what will happen during the experience, and integration, which allows the experience to be transferred into everyday life. In its fourth edition, Fuertedélica 2025 will delve into the deep oceans of psychonautics. In fact, the event itself will be a complete psychedelic experience, through its essential structure: preparation, initiation, and integration.

Today, psychedelic exploration presents a multitude of scenarios: clinical and therapeutic settings, festivals and raves, introspective and self-discovery spaces, shamanic and religious practices, spiritual quests, scientific research, and clinical trials, among others. Fuertedélica 2025 will address this diversity from a cross-disciplinary and participatory perspective, offering a space for debate, the exchange of ideas, and networking.

To this end, we have reduced the number of presentations and expanded the time for discussion and active participation. We will feature keynote addresses addressing the psychedelic experience from a holistic perspective, as well as our traditional panel of young researchers and a space for poster presentations.

In addition, Fuertedélica 2025 will offer workshops and parallel activities, which will be announced on our website and social media. And, as every year, we will close with a grand celebration, bidding farewell to this year's edition and welcoming in the next cycle: Fuertedélica 2026.

FUERTEDELICA WEEK

A WEEK FULL OF ACTIVITIES AND EXPERIENCES

Día/Hora	Martes 4/11	Miércoles 5/11	Jueves 6/11		Viernes 7/11		Sábado 8/11	Domingo 9/11
